The Project

Energy Efficiency in multi-family houses
Initiative for
Energy Efficiency in Ukraine

Actors & Objectives

Large-Scale Roll-Out

What Else Is Needed?
- Business promotion programs
- Economic and legal aspects
- Production of information materials
- Effective mechanisms of cost control

Lessons Learned
- Evaluation and monitoring
- Technical support
- Quality control
- Effective mechanisms of cost control

Field Testing!
- Learning by Doing

What do we need...
- Energy audit
- Technical support
- Monitoring
- Evaluation

Draft Support Program & Road Map

Your next test if you want to win the race!
How to make your house feel comfortable?

What do we need...
Quality material

Know how

Affordable financing

ATTRACTIVE PRODUCT
Decision of the owner!
DRAFT SUPPORT PROGRAM & ROAD MAP
Definition of the
Framework
National Support Program

- eligible applicants
- scope of measures
- run-time
- conditions
- securization/collateralization
- application process & documents
Setting up the ROADMAP

What *pre-conditions* are necessary to develop and implement the National Support Program?

Recommendations for required actions in the fields of:

- legal framework
- finance & funding
- business
- research
“From what kind of projects we will learn the most?”

DEFINING
SAMPLE PROJECTS

Spring 2016
FIELD TESTING!
"Learning by Doing"

- Ongoing participation of home owners
- Full work & support for residents
- Obliging milestone decisions at each stage
- Transparency & control

Renovation concepts for sample projects
Individual financing concepts
Project realization
- ongoing participation of home owners
- PR work & support for residents
- obliging milestone decisions at each stage
- transparency & control
What was **successful**?
What has to be **improved**?

**LESSONS LEARNED**

continuous adjustments
LESSONS LEARNED

continuous adjustment process

What was successful?
What has to be improved?

FIELD TESTING!
"Learning by Doing"
WHAT ELSE IS NEEDED?

- **business promotion** programs
- investment in **local** production of construction components
- effective mechanisms of **quality control**

- **massive qualification** for:
  - planners & architects
  - construction workers
  - house administrator
  - house owners
  - public administration
Sample projects serve as "blueprint" for large-scale rehabilitation
