

Series of discussions "Bioenergy of Ukraine"

ONLINE DISCUSSION # 5
"Ukrainian biomethane market in the European dimension.
Regulatory and economic aspects"

Date and time: September 8, 2022, 12:00 Kyiv time, online

Language: English (without translation)

Key questions:

- the main challenges and prospects for biomethane market development in Ukraine and in the world;
- aspects of implementing biomethane registry in Ukraine;
- the EU experience in biomethane market development, legislation, standardization in the mentioned field;
- peculiarities of international trade in biomethane and mutual recognition of biomethane guarantees of origin;
- peculiarities of conducting an independent audit of a biomethane production facility.

Moderator - Andriy Kulikov, journalist, TV and radio presenter, media expert.

Time	Speakers	Speech
12:00 – 12:03	Andriy Kulikov – journalist, TV and radio presenter, media expert.	Moderator’s introduction
12:03 – 12:10	Yuliia Pidkomorna – Deputy Minister, Ministry of Energy of Ukraine* Valerii Bezus – Head, State Agency on Energy Efficiency and Energy Saving of Ukraine	Discussion’s start
12:10 – 14:00	Olena Lenska – Director, Renewable Energy Department, State Agency on Energy Efficiency and Energy Saving of Ukraine	Biomethane market development in Ukraine

	Karolina Cegir – Senior Gas Expert, Energy Community Secretariat	Prospects of biomethane production and support schemes of biomethane in EU
	Giulia Cancian – Secretary General, European Biogas Association	Experience and prospects of biomethane production in Europe
	Matthias Edel – Secretary General, European Renewable Gas Registry (ERGaR)	The experience of creating the European register of renewable gases - ERGaR, the necessary conditions for the inclusion of the biomethane register of Ukraine to the hub of ERGaR registers, adapting existing registers to the requirements of the RED II Directive issues
	Sukru Bogut – Senior Energy Advisor, USAID	Prospects of investments in biomethane production projects and support of Ukraine
	Jakob Jegal – Senior Expert Renewable Energies, the German Energy Agency (dena)	A successful example of the biomethane market development, the biomethane register in Germany, mechanisms of state support
	Máté Fuchsz – Landwärme GmbH (Germany)	Cross-border Trade with Biomethane in the CEE Region - Current Practice & Future Perspectives
	Julian Auerieth – Project Manager, the Austrian Biomethane Registry, AGCS (Austria)	Functioning of the biomethane register in Austria, legislation and state support mechanisms
	Javier Cervera – Vice President, Association of Energy Engineers of Spain (AEE Spain)	Biomethane production in Spain

	Pia Farstad von Hall – CEO, Biogass Norge (Norway)	The Norwegian biomethane market
	Thorsten Rohling – Managing Director, Agriportance GmbH (Germany)	Biomethane market in Germany
	Mykola Kadensky – Head, the Network Development Department, Operator GTS of Ukraine	Peculiarities of connecting potential biomethane producers to the gas station
	Georgii Geletukha – Chairman of the Board, Ukrainian Bioenergy Association	Prospects for the production and use of biomethane in Ukraine
	Kateryna Postolenko – Lead Project Manager for GHG & Sustainability, Bureau Veritas Certification	Biomethane, RED II and sustainability certification
13:30	Valerii Bezus – Head, State Agency on Energy Efficiency and Energy Saving of Ukraine	Summing up the discussion

**to be confirmed*
