Vienna, 20 March 2015

UA-MIN/O/jko/24/20-03-2015

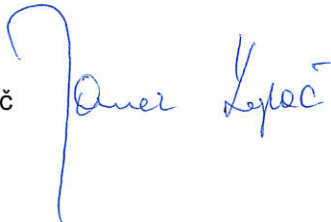

Dear Mr.Savchuk

The Energy Community Secretariat, on the request of the State Agency on Energy Efficiency and Energy Saving of Ukraine explains that Energy Efficiency Action Plan (EEAP) shall be developed taking into consideration provisions of Directive 2006/32/EC on energy end-use efficiency and energy services.

Energy Efficiency Action Plan template, firstly developed in European Union for the purpose of monitoring individual national plans as well, is used also in all Energy Community Contracting Parties in order to ensure uniform structure of information provided in national plans. Such presentation is of utmost importance to compare EEAPs among themselves and to allow proper assessment to the Secretariat of their compliance with the Directive.

With best regards,

Janez Kopač
Director

MR. SERHII SAVCHUK
CHAIRMAN OF THE STATE AGENCY ON ENERGY
EFFICIENCY AND ENERGY SAVING UKRAINE
